JUN 07 1999

**URGENT LEGAL MATTER - PROMPT REPLY NECESSARY**  
**CERTIFIED MAIL: RETURN RECEIPT REQUESTED**

**NOTICE OF POTENTIAL LIABILITY AND OFFER TO SETTLE**

Addressee

Dear :

The U.S. Environmental Protection Agency ("EPA") has been and is currently working to address the contamination at the RSR Corporation Superfund Site ("Site") in Dallas, Texas. The Superfund program is a federal program administered by EPA to clean up hazardous substances which may pose a threat to human health or the environment. The full name of the Superfund law is the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"). A fact sheet with further information about the RSR Site and EPA's efforts to date is included with this letter as Enclosure 1. EPA is sending this information to you because EPA believes that you are potentially responsible for contributing or transporting a small amount of hazardous material to the Site.

CERCLA provides that EPA may seek recovery of costs it incurs in addressing contamination under the Superfund program from responsible parties. As of January 31, 1998, and as detailed in Enclosure 2, EPA has incurred costs of \$27,148,944.00 in responding to contamination at the RSR Site, and EPA expects to continue to incur costs at the Site in the future. In accordance with CERCLA, EPA is seeking recovery of those costs.

EPA's goal is to enter into a fair and equitable agreement with responsible parties. Toward that end, EPA is willing to use certain settlement tools available under the Superfund law. One of the tools available is a "de minimis settlement" for small contributors of hazardous materials at the Site. This type of settlement enables parties who have made only a minimal contribution of hazardous material to the Site to resolve their liability for the costs incurred in responding to the

contamination. Enclosure 3 to this letter is an informational pamphlet, "De Minimis Settlements," which will answer the basic questions about this type of settlement.

Based upon business records obtained from RSR Corporation, EPA has developed a contribution ranking list for the Site. The list ranks responsible parties at the Site by the volume of material they contributed to the Site. EPA has decided that parties who contributed less than one percent (1%) of the material to the Site will be eligible for a de minimis settlement.

#### EPA SETTLEMENT OFFER

Based on the information currently available to EPA, you are eligible for a de minimis settlement. The information linking you to the Site is derived from business records obtained from RSR Corporation described more fully in Enclosure 4 to this letter. Under the terms of the de minimis settlement offer being made by EPA, each party will pay a share of the past costs incurred at the Site, a share of anticipated future costs, and a premium on the share of anticipated future costs to cover the risk that future costs may be greater than anticipated. **You can find the amount you must pay to participate in the EPA de minimis settlement by reviewing the Contribution Ranking and Settlement Amount List included in this letter as Enclosure 5.** You can read more information about the premium in Enclosure 6. Each party that accepts EPA's de minimis settlement offer will resolve all of its liability for Superfund response costs that have been or may be incurred at the Site by the United States Government or other responsible parties. The de minimis settlement will be documented in an Administrative Order on Consent. A draft of the Administrative Order on Consent is included in this letter as Enclosure 7 for your review. Returning a signed signature page for the Administrative Order on Consent indicates your willingness to accept this settlement offer.

#### SETTLEMENT OFFER BY THE STATE OF TEXAS

The State of Texas, through the Texas Natural Resource Conservation Commission ("TNRCC") has also incurred response costs at the RSR Site. TNRCC is seeking recovery of those costs. This letter includes information that will permit you to resolve your liability to TNRCC and EPA in a single transaction as documented in the Administrative Order on Consent. The terms of the de minimis settlement offer being made by TNRCC are set forth in Enclosure 8, which was provided by TNRCC to EPA for inclusion in this letter. **You can find the amount you must pay to participate in the State settlement by reviewing the State of Texas Settlement Offer included in this letter as Enclosure 8.**

#### DEADLINE FOR ACCEPTING OFFERS

In order for you to take advantage of the de minimis settlement offer, you must complete the signature page for the Administrative Order on Consent, Enclosure 9 to this letter, and return it to EPA by close of business not later than 60 days after the date of this letter. After that date, EPA's de minimis settlement offer expires without further notice. Mail your completed signature page to:

Barbara J. Aldridge  
Superfund Cost Recovery Section (6SF-AC)  
U.S. Environmental Protection Agency  
Region 6  
1445 Ross Avenue  
Dallas, Texas 75202-2733

Please be aware that if you are found to be a responsible party and you do not enter into this de minimis settlement with EPA, you may be subject to legal action by EPA, including a lawsuit or a possible administrative order to perform work at the Site, or contribution actions by other responsible parties for costs expended regardless of your share.

#### ADDITIONAL INFORMATION

If you are interested in reviewing documents related to the Site or the evidence EPA relied upon to connect you or other parties to the Site and to prepare the Contribution Ranking List, Enclosure 10 provides information on where documents are located, how to make an appointment to review them or how to obtain copies. You may also access selected information on the RSR Corporation Superfund Site through EPA's World Wide Web page at: [www.epa.gov](http://www.epa.gov) under Region 6 "Superfund Division."

#### CONTACTING EPA

Please direct any written response to this letter, including a response if you believe you received this letter in error, to Ms. Barbara J. Aldridge, Enforcement Officer, at the address specified above. If you have questions regarding the matters in this letter, Ms. Aldridge can be reached by email at [aldridge.barbara@epa.gov](mailto:aldridge.barbara@epa.gov) or by telephone at (214) 665-2712. If you or your attorney have legal questions, please direct them to Mr. Edwin Quinones, Superfund Attorney, at email [quinones.edwin@epa.gov](mailto:quinones.edwin@epa.gov) or by phone at (214) 665-8035, or to Mr. Joseph E. Compton III, Superfund Attorney, at email [compton.joseph@epa.gov](mailto:compton.joseph@epa.gov) or by phone at (214) 665-8506.

Sincerely yours,

Myron O. Knudson, P.E.  
Director  
Superfund Division

## **RSR Site Summary (History and Background)**

## RSR SITE SUMMARY

### I. SITE HISTORY AND BACKGROUND

#### A. Site Description

The RSR Corporation Superfund Site ("Site") is an area of approximately 13.6 square miles located across the Trinity River from and west of downtown Dallas, Texas. The Environmental Protection Agency ("EPA") has performed and continues to perform response actions to address environmental contamination at the Site pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9601 et seq. ("CERCLA" or "Superfund").

Contamination at the Site originated from a secondary lead smelter (consisting of two properties separated by Westmoreland Road) that operated at the heart of the Site from the early 1930s to 1984. Lead, arsenic, and cadmium are the primary pollutants of concern. Contamination was dispersed from the smelter properties throughout the Site from air emissions from the stack at the smelter as well as from the use by area residents of lead slag and battery casings as fill material in their yards and driveways. In addition, smelter operators disposed of smelter wastes, predominantly lead slag and battery casing chips, at municipal landfills operated by the City of Dallas and in an undeveloped area near the smelter properties.

#### B. Operable Units

Because of the large size of the Site and the different problems presented at the Site, EPA divided the Site into five Operable Units ("OUs"). The following is a summary of the OUs:

- OU No. 1: Private residential area. There are approximately 6,800 homes located in this OU.
- OU No. 2: Public housing area owned by the Dallas Housing Authority.
- OU No. 3: Three distinct properties where smelter waste was disposed. Site 1 of OU No. 3 is an area where slag and battery chips are visible at the surface. Sites 3 and 4 of OU No. 3 are the locations of municipal landfills that were operated by the City of Dallas. The landfills have been covered and the property is now divided and owned by many individual landowners. (Site 2 is a former landfill located within and considered part of OU No. 5 identified below).

- OU No. 4: The location of the former secondary lead smelter at the southeast corner of Westmoreland Road and Singleton Blvd. The majority of this property is covered by a concrete foundation. Nine buildings and a stack remain on the property. OU No. 4 is currently owned by Murmur Corporation ("Murmur").
- OU No. 5: Associated industrial property located across the street from the former smelter. Battery breaking and various disposal practices were performed at this OU. The northern portion of OU No. 5 is owned by Murmur and the southern portion is currently owned by Quemetco Metals Limited, Inc., as subsidiary of RSR Corporation ("RSR").

C. Background of Smelter Operations

Secondary smelting operations commenced at the Site in the early 1930s and ceased in 1984. Until 1971, the lead smelter (OU No. 4) and battery breaking operations (OU No. 5) located in the approximate center of the Site were owned and operated by Murph Metals, Inc. or its predecessors. For several years Eagle Picher Company leased the property from Murph Metals and operated the smelter. In 1971, RSR acquired the lead smelting operation and continued to operate the smelter under the name Murph Metals. The facility continued to operate under the ownership of RSR/Murph until 1984 when a Federal Trade Commission divestiture order resulted in the acquisition of the facility in May 1984 by the current owner, Murmur.

In 1983 the City of Dallas declined to renew the operating permit for the smelter and placed certain zoning restrictions on the smelter property resulting in its permanent closure. Since that time no operations have been conducted at the smelter property, OU No. 4. Likewise, battery breaking operations permanently ceased at OU No. 5 located across the street. Murmur currently operates a small lead fabrication facility on OU No. 5.

D. National Priorities Listing

The Site was proposed for listing on the National Priorities List ("NPL"), which constitutes Appendix B of the National Hazardous Substances and Pollution Contingency Plan, 40 C.F.R. Part 300, on May 10, 1993 (58 Fed. Reg. 27507). On September 29, 1995 (60 Fed. Reg. 50435), the Site was listed as final on the NPL making the site eligible for remedial action funding.

## **II. HISTORY AND STATUS OF CERCLA RESPONSE ACTIONS**

### **OU No. 1:**

In the early 1990's, EPA conducted a removal action at OU No. 1. During the removal, contaminated soil was removed and replaced with clean soil and replacement vegetation at 420 residences and high risk areas (church yards and day care centers, etc.) in the private residential area of the Site. These properties were contaminated by air emissions from the smelter stack as well as the use of lead slag and battery casing chips as fill in yards and driveways. EPA authorized this removal action in the following decision documents:

October 24, 1991--Action Memorandum for Emergency Removal action in residential area contaminated by air emissions from the smelter.

May 12, 1992--Action Memorandum requesting an increase in the \$2 million removal ceiling and authorizing the continuance of the emergency removal action at OU No. 1.

September 23, 1992--Action Memorandum requesting an exemption from the twelve-month removal action limitation and authorizing the continuance of the emergency removal action.

May 3, 1993--Action Memorandum requesting an increase in the \$2 million ceiling in order to address residential areas in OU No. 1 contaminated with lead slag and battery casing chips.

During the removal action, EPA conducted a remedial investigation ("RI") and human health and ecological risk assessments at OU No. 1. On November 18, 1994, EPA released to the public the final RI and risk assessment reports. Simultaneously, EPA released for public comment a Proposed Plan for OU No. 1 which proposed that no further action was necessary to protect human health and the environment at OU No. 1. Following the public comment period on the Proposed Plan, EPA issued a Record of Decision ("ROD") on May 9, 1995, stating that no further action is necessary at OU No. 1.

### **OU No. 2:**

OU No. 2 consists of property owned by the Dallas Housing Authority ("DHA"). The area has been the location of multi-family public housing projects since the mid-1950s. The southwest portion of OU No. 2 was contaminated by air emissions from the smelter. On August 9, 1993, EPA and DHA entered into a CERCLA Administrative Order on Consent ("AOC") under which DHA agreed to conduct removal activities and an RI of OU No. 2 with EPA oversight. The AOC specified that DHA would perform the removal activities in the same manner and in accordance with the action memoranda for EPA's removal action in OU No. 1.

There were approximately 167 multi-family residential buildings in a state of disrepair and no longer occupied in the area, and DHA proposed to demolish the buildings as part of the removal project. Pursuant to the AOC and EPA approved workplans, DHA demolished the 167 buildings and excavated and disposed of contaminated soils offsite. Pursuant to the AOC, DHA is required to reimburse EPA "response costs" incurred by EPA associated with the AOC.

During DHA's conduct of the removal and RI, EPA conducted human health and ecological risk assessments for OU No. 2. On November 18, 1994, EPA released to the public the final RI and risk assessment reports and released for public comment a Proposed Plan for OU No. 2 which proposed that no further action was necessary to protect human health and the environment at OU No. 2. Following the public comment period on the Proposed Plan, EPA issued a ROD on May 9, 1995, stating that no further action is necessary at OU No. 2.

### **OU No. 3:**

OU No. 3 consists of three sites where smelter waste was disposed. Site 1 is an area where slag and battery chips are visible at the surface. Sites 3 and 4 are the locations of municipal landfills that were operated by the City of Dallas. Site 4 also includes an area of surface contamination in Jaycee Park. (Site 2 is a former landfill located within and considered part of OU No. 5 identified below).

Following a public comment period on the Proposed Plan for remedial action for OU No. 3, EPA issued the ROD for OU No. 3 on September 30, 1997. The major components of the remedy selected for OU No. 3 are the excavation and offsite disposal of slag, battery chips, and contaminated soil from Site 1; the containment (protective cap) of the portions of the landfill where there is exposed slag, battery chips, and metals-contaminated soil at Site 3; and the containment (protective cap) of portions of the landfill at Site 4 where there is exposed slag, battery chips, and metals-contaminated soil, and the removal or surface contamination in Jaycee Park. The projected cost of the remedy selected for OU No. 3 is \$6,350,000.

### **OU Nos. 4 and 5 Non-Time Critical Removal Action:**

On December 22, 1994, EPA signed an Action Memorandum for the conduct of a non-time critical removal action at OU Nos. 4 and 5. EPA based its decision on an Engineering Evaluation/Cost Analysis ("EE/CA") Report that was issued for public comment on September 16, 1994.

The removal action at OU Nos. 4 and 5 commenced in May 1995 and was completed in July 1995. The action consisted of removal of 600 drums of waste material, 90 debris piles and 60 laboratory containers present at OU Nos. 4 and 5. All of the materials were disposed of offsite.

#### **OU No. 4:**

OU No. 4 is the location of the former secondary lead smelter. The majority of this property is covered by a concrete foundation. Nine buildings and a stack remain on the property.

Following a public comment period on the Proposed Plan for remedial action at OU No. 4, EPA issued the ROD for OU No. 4 on February 28, 1996. The major components of the remedy selected for OU No. 4 are the demolition and off-site disposal of the buildings on OU No. 4; the demolition and off-site disposal of the smelter stack; and the excavation and off-site disposal of concrete foundations and contaminated soil. The projected cost of the remedy selected for OU No. 4 is \$11,490,795.

#### **OU No. 5:**

OU No. 5 includes the location of the former battery breaking operation, a vehicle maintenance building, a slag burial area, and other areas related to the smelter operations. The battery breaking building is highly contaminated. Adjacent to the battery breaking building is a surface impoundment where lead sludge and other waste liquids from the battery recycling operations were disposed. In addition, a landfill is located on the southern portion of the property. Waste material contained in the landfill includes car parts, lead slag, battery chips, municipal waste and other industrial waste.

Following a public comment period on the Proposed Plan for remedial action for OU No. 5, EPA issued the ROD for OU No. 5 on April 3, 1997. The major components of the remedy selected for OU No. 5 are the decontamination of buildings; the demolition and off-site disposal of the battery breaking building; the containment of the surface impoundment, landfill, and slag burial area. The ROD also found that no action is necessary to address groundwater associated with OU Nos. 4 and 5. The projected cost of the remedy selected for OU No. 5 is \$9,343,800.

### **III. EPA ENFORCEMENT HISTORY**

#### **A. RSR Administrative Order on Consent**

As a result of a lawsuit brought by the City of Dallas and the Texas Air Control Board against RSR/Murph, in 1983 RSR/Murph was required by court order to perform certain corrective measures at the smelter facility as well as to perform certain cleanup activities in the surrounding area. On October 21, 1983, EPA entered into an Administrative Order on Consent ("AOC") with RSR/Murph that tracked the requirements of the state court order. RSR/Murph was required to install equipment on the stack to better control fugitive emissions and to fund a cleanup of the residential area within one-half mile of the smelter. The residential cleanup consisted of the excavation of soils with a lead concentration in excess of 1000 parts per million ("ppm") and the removal of soils from several public play areas and a day care center.

EPA determined during the remedial investigation and removal action at OU No. 1 conducted in the early 1990's that the areas previously addressed under the RSR/Murph AOC did not require further cleanup to protect human health and the environment.

**B. Murmur Administrative Order on Consent for OU No. 1 Removal Action**

On October 31, 1991, EPA and Murmur entered into an AOC under which Murmur agreed to provide EPA services during EPA's removal action at OU No. 1. Specifically, Murmur agreed to allow EPA to stage contaminated soils excavated from residential yards in OU No. 1 and equipment in the batch house located on OU No. 4. In addition, Murmur agreed to provide security to prevent access to the batch house until all contaminated soils were removed and disposed of offsite.

**C. Dallas Housing Authority Administrative Order on Consent**

DHA performed the removal action and the RI at OU No. 2 under an Administrative Order on Consent ("AOC"). As a result of the removal action and based on the RI and risk assessment, EPA has decided that no further action is necessary at OU No. 2 (see May 9, 1995 ROD for OU No. 2). DHA is paying all EPA oversight costs associated with its activities under the AOC.

**D. Notice Issued to Potentially Responsible Parties ("PRPs")**

On September 2, 1993, EPA issued General and Special Notice, pursuant to CERCLA Section 122, 42 U.S.C. § 9622, to RSR, Quemetco Metals Limited, Inc. (formerly known as Murph), Murmur Corporation, and the City of Dallas to perform various response activities at the Site. EPA did not receive what it considers a good faith offer from any of these parties.

1. **RSR/Quemetco.** EPA provided simultaneous notice to RSR and the related company, Quemetco, on several occasions and provided them the opportunity to perform or finance major activities at the Site, including the RI/FS at OU Nos. 4 and 5 and the non-time critical removal action at OU Nos. 4 and 5. RSR/Quemetco met with EPA several times but offered only to perform investigatory and remedial design activities at the portion of OU No. 5 that it currently owns (southern portion where landfill is located). EPA did not consider this to be a good faith offer.

2. **Murmur Corporation.** EPA provided notice to Murmur to perform the RI/FS at OU Nos. 4 and 5 and the non-time critical removal action at OU Nos. 4 and 5. Murmur responded that it did not have an ability to pay for the activities.

3. City of Dallas

EPA provided notice to the City of Dallas to perform the RI/FS at Sites 3 and 4 of OU No. 3, the former City landfills. The City did not provide a good faith offer to perform the necessary activities.

4. Notice Letter to Major Parties for OU No. 4 Remedial Action

On June 5, 1996, EPA issued a Notice Letter for Remedial Action, OU No. 4, to generators and owner/operators at the Site--RSR Corporation and related entities; Murmur Corporation; Eagle-Picher Industries; Johnson Controls, Inc. (Globe Union); M. Lipsitz & Co., Inc.; General Motors Corporation (Delco-Remy); Madewell and Madewell; Interstate Battery System of America, Inc.; GNB Technologies, Inc. (Gould); Commercial Metals Company; and Duggan Industries, Inc. Settlement negotiations with a group of the noticed parties, including Johnson Controls, Inc. (Globe Union); M. Lipsitz & Co., Inc.; General Motors Corporation (Delco-Remy); Interstate Battery System of America, Inc.; GNB Technologies, Inc. (Gould); Commercial Metals Company; and Duggan Industries, Inc., resulted in a settlement that will, among other things, provide for the performance of the remedial action at OU No. 4 by the participating parties. This settlement, as embodied in a Consent Decree, was lodged in U. S. District Court on May 29, 1998.

5. Notice Letter to Major Parties for OU No. 5 Remedial Design and Remedial Action

On April 8, 1998, EPA issued a Notice Letter for Remedial Design/Remedial Action, OU No. 5, to generators and owner/operators at the Site -RSR Corporation and related entities; Murmur Corporation; Eagle-Picher Industries; Madewell and Madewell; Micon Metals Corporation, Exide Corporation, and Steve Nutt. Settlement negotiations with these parties are in progress.

IV. PAST RESPONSE COSTS

EPA has prepared cost documentation packages of costs incurred and paid for all OUs at the Site for three time periods: from 1980 through December 31, 1994; January 1, 1995 through June 30, 1997; and July 1, 1997 through January 31, 1998. The total amount of EPA past costs for the Site as of January 31, 1998, is \$27,148,944.

## **ENCLOSURE 2**

### **EPA Cost Summary**

## EPA Past Cost Summary

RSR Corporation Superfund Site		
SITE ID	Site ID Operable Unit (OU) description	Past Cost
2H	OU1 Residential/General	\$14,482,215
6K	OU1A Phase I Removal Area	71,157
6L	OU1B Phase II Removal Area	2,732,241
7K	OU3 General	2,765,037
6M	OU3A Westmoreland Slag Site	23,139
6N	OU3B Loop 12 Slag Site	21,589
6P	OU3C Clairbourne Slag Site	17,699
6Q	OU4 Smelter	5,073,200
6R	OU5 General RSR/Murmur Property	1,952,120
6S	OU5A Murmur Property	6,324
6T	OU5B RSR Property	4,223
<b><i>TOTAL of Unreconciled costs for All Site IDs through January 31, 1998</i></b>		<b>\$27,148,944.00</b>

Cost Package Status: Cost documentation packages for time periods 1991 through 1994, January 1, 1995 through June 30, 1997, and for July 1, 1997 through January 1, 1998, are completed. Cost packages may be amended at any time to include previously undocumented costs.

[Note: Site ID 3Y - OU2, Dallas Housing Authority - oversight costs in the amount of \$517,593, being reimbursed to EPA through Settlement Agreement with DHA, are not reflected in the table above.]

## **ENCLOSURE 3**

**“De Minimis Settlements” pamphlet**

## What Is Superfund?

Superfund is a federal program, administered by the Environmental Protection Agency, that is designed to clean up hazardous substances (or "waste") that may pose a threat to human health or the environment. The full name of the law is the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA).

Many Superfund sites are areas or facilities where solvents, sludges, heavy metals, or other wastes have been disposed. These sites range in size from a 1/4-acre metal plating shop to a 250-square mile mining complex. Contamination from these sites is often found in the soil, groundwater, and/or nearby streams and lakes.

The RSR Corporation Site was a secondary lead smelting facility that operated from the 1930s until 1984 in Dallas, Texas. Contamination resulted from air dispersal of contamination from the smelter stack, the use of slag and battery chips as fill for residential yards and driveways, and from smelter waste left at the facility and disposed at other locations in the area.

Lead, arsenic, and cadmium are the pollutants of concern.

---

## Who Pays for Cleanups?

When Congress enacted Superfund, it intended to "make the polluters pay" for the cost of the cleanup of these sites. To achieve this goal, EPA seeks to hold these parties who contributed to the contamination responsible for the cost of cleanup. Such parties may be asked to perform or pay for the cleanup of a site even if they acted in full accordance with the law at the time they disposed of the waste.

## Where Can I Get More Information?

To find out more about RSR Corporation Site de minimis settlements, and how you might be involved, contact:

# Superfund

and

## Small Waste Contributors

## De Minimis Settlements

---

Have you been contacted by the U.S. Environmental Protection Agency or another party regarding your possible involvement with the RSR Corporation Superfund site in Dallas, Texas? If you believe the waste that you contributed to the site was minimal, you should learn about de minimis settlement.

This pamphlet describes what Superfund is, who Potentially Responsible Parties are, and why a de minimis settlement may be to your advantage.

U.S. Environmental Protection Agency (EPA)  
Superfund Division  
1445 Ross Avenue  
Dallas, Texas 75202  
[www.epa.gov/earth1/r6/6sf/6sf.htm](http://www.epa.gov/earth1/r6/6sf/6sf.htm)

## What Does "De Minimis" Mean?

At many sites there are Potentially Responsible Parties (PRPs) who may have contributed only a very small amount of waste to a site. EPA may consider these parties "de minimis" because their contribution is minimal compared to the other waste at the site. For example, an individual who contributed one percent or less of the waste at the site may be considered a de minimis party.

In recognition of their relatively small contribution of waste, and to help ensure that these de minimis parties do not get drawn into lengthy and expensive lawsuits, EPA may offer a special type of settlement to these types of parties.

---

## Who is Eligible for a "De Minimis" Settlement?

Whether and how individuals qualify for a de minimis settlement depends on a variety of site-specific factors. However, in general, you may qualify for a de minimis settlement if:

- ✓ The *amount* of waste you contributed is minimal in comparison to the other hazardous substances at the site;
  - ✓ The *toxic* or other *hazardous effects* of the waste you contributed are minimal in comparison to the other hazardous substances at the site; and
  - ✓ The settlement is in the *public interest*, and involves only a minor portion of the response costs at the site.
- 

## What are the Benefits of a "De Minimis" Settlement?

Although EPA may go to court to require PRPs to pay for (or perform) a cleanup, the Agency often prefers to settle its claims without resorting to expensive court action. Settlements save both time and money for all parties involved.

De minimis settlements can provide several benefits, including:

**"Covenant Not to Sue"** - This provision is a promise that the EPA will not bring any future legal actions against the de minimis party regarding the site and the specific matters named.

**"Contribution Protection"** - This provision offers protection to the de minimis settlor from being sued by other PRPs at the site. Frequently, major waste contributors will sue many small waste contributors to recover their cleanup costs. A de minimis settlement provides protection from such suits that extends to all matters covered by the settlement.

Taken together, contribution protection, the covenant not to sue, and other de minimis settlement terms provide settlers with a high level of certainty that their responsibilities at the site are fulfilled, and that they are protected from future legal actions related to those matters addressed by the settlement. To date, over 15,000 individuals, small businesses, and others have entered into more than 340 de minimis settlements with EPA to resolve their Superfund liability.

---

## What Other Settlement Provisions are Important?

**"Payments and Premiums"** - Although the amount a de minimis settlor may pay varies from site to site, in general, the payment amount is calculated by a basic payment and a premium payment. The basic payment is based on an estimated cost to clean up the site and the amount of the de minimis party's waste as a percentage of the total waste at the site.

The premium payment is associated with the protection from further EPA lawsuits that is provided by the "covenant not to sue." Premium amounts vary according to a variety of factors specific to both the site and the settlement, but typically range from 50-100% of the basic payment.

**"Reopeners"** - if you enter into a de minimis settlement with the EPA, you will likely be asked to certify that your waste contribution is the amount (and type) that you claim. After the settlement is finalized, if new information indicates that your contribution is actually greater than you originally certified, the settlement may be "reopened" for renewed consideration. Other type of reopeners may also be included.

---

## Premium Explanation Document

**RSR CORPORATION SUPERFUND SITE**  
**DE MINIMIS PREMIUM EXPLANATION DOCUMENT**

After receiving a de minimis settlement offer from the U.S. Environmental Protection Agency, potential de minimis settlors often have several questions. This document is intended to answer questions concerning the de minimis premium.

This document answers three commonly asked questions:

- 1) What is a premium?
- 2) What is EPA's general policy on premiums in de minimis settlements?
- 3) How was the premium in this settlement determined?

1. What is a premium?

Typically, a de minimis settlement offer comprises both a "base payment" and a "premium." The premium is essentially a risk transfer mechanism, similar to an insurance premium. When a de minimis party obtains a final resolution of liability, it shifts its liability-related risks to the government and, in many cases, to other PRPs. In exchange for a release from liability, EPA normally requires de minimis settlors to pay a premium in addition to their base payment amount. The premium is typically a percentage of the future cost component of the settlor's base payment, and is determined as a matter of EPA's enforcement discretion.

The type and magnitude of risks that are shifted by a de minimis settlement vary. However, in each case, the primary reason for increased risk to EPA and the remaining PRPs is the finality of the de minimis settlement. This finality results both from the breadth of the settlement's "covenant not to sue" and from the fact that, in de minimis settlements, EPA omits the settlement "reopeners" that are typically included in Superfund settlements.

In addition, the extent of the uncertainties at a site at the time of settlement contributes to the degree of risk shifted by the de minimis settlement. These uncertainties include, among others, (1) the cost and extent of future response actions, (2) the potential magnitude of the Site's orphan share, and (3) accuracy of EPA's determination of each de minimis party's share.

By paying a premium as part of settlement, the de minimis party compensates for the finality it obtains and for the risks others assume. Thus, the amount of the premium depends on the degree of finality afforded to the settlor and the extent of risk assumed by the Agency and the site's remaining PRP's.

2. What is EPA's general policy on premiums in de minimis settlements?

EPA seeks to offer de minimis settlements to eligible PRPs as early in the Site clean-up process as possible. Moreover, EPA makes every effort to craft de minimis settlement offers on terms that will be acceptable to all parties at the site -- including non-de minimis parties. In light of the risks that are transferred to both EPA and to other PRPs by a de minimis settlement, EPA issued a policy in June 1995 that set forth presumptive premiums to be applied in most de minimis settlements.

EPA's premium policy states that if the settlement does not contain a remedy cost reopener (and thereby grants the settlors maximum finality) the premium should usually be 100%. This presumptive figure is based on the premiums assessed in more than 150 settlements that were developed under the Agency's enforcement discretion, subjected to notice and public comment, and approved by a court.

Although EPA's policy recommends the use of this figure, the premium determination remains a matter of EPA's enforcement discretion. Among the types of circumstances that may justify a Regional Office's deviation from the presumptive premium are:

- **Remedy Costs.** Uncertainty regarding remedy cost may be due to the possibility of cost fluctuations, remedy contingencies, or the possibility of remedy "failure."

- **Magnitude of Orphan Share.** Relative uncertainty regarding the orphan share may be reflected in the premium if the orphan share has not simply been reallocated among all PRPs at the site.

- **Waste Allocation.** Relative uncertainty in the waste allocation may concern the quantity of waste contributed (e.g., where the contribution may be greater or less than estimated, but still within the de minimis cutoff); or the nature or toxicity of the waste contributed (e.g., where the statutory requirement regarding toxicity is met, but some uncertainty remains regarding relative type or toxicity of waste contributed).

3. How was the premium in this settlement determined?

The premium in this settlement is 100% of each party's allocated share of anticipated future costs. This premium is consistent with the presumptive premium amount contained in EPA's national policy issued in June 1995. EPA does not believe that uncertainty regarding remedy costs, the magnitude of the orphan share, or the waste allocation in this case are so significant as to justify deviation from the presumptive premium amount. Furthermore, EPA has concluded that no other factors exist in this case which justify deviation from the presumptive premium amount.

## Draft Administrative Order on Consent ("AOC")

IN THE MATTER OF: )

RSR CORPORATION SUPERFUND SITE )  
DALLAS, TEXAS )

U.S. EPA Docket No. \_\_\_\_\_

Proceeding under Section 122(g)(4) )  
of the Comprehensive Environmental )  
Response, Compensation, and )  
Liability Act of 1980, as amended. )  
42 U.S.C. § 9622(g)(4) )

ADMINISTRATIVE ORDER  
ON CONSENT

## I. INTRODUCTION

1. This Administrative Order on Consent ("Consent Order") is entered into voluntarily by the United States Environmental Protection Agency ("EPA"), the State of Texas ("State") and the parties listed in Appendix A of this Consent Order (hereinafter referred to collectively as "Respondents").

## II. JURISDICTION

2. This Consent Order is issued pursuant to the authority vested in the President of the United States by Section 122(g)(4) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9622(g)(4) to reach settlements in actions under Section 106 or 107 of CERCLA, 42 U.S.C. §§ 9606 or 9607. The authority vested

in the President has been delegated to the Administrator of the EPA by Executive Order 12580, 52 Fed. Reg. 2923 (Jan. 29, 1987), and further delegated to the Regional Administrators of the EPA by EPA Delegation No. 14-14-E (May 11, 1994). This authority was further delegated to the Director of the Superfund Division by EPA Region 6 Delegation R6-14-14-E (August 4, 1995).

3. In regard to the State of Texas, this Consent Order is issued pursuant to Section 361.200 of the Texas Health and Safety Code and 30 T.A.C. § 335.351(d), which provide for de minimis settlements by the State.

4. This Consent Order is issued to the persons, corporations, or other entities identified in Appendix A ("Respondents"). Each Respondent agrees to undertake all actions required by this Consent Order. Each Respondent further consents to and will not contest EPA's or the State's jurisdiction to issue this Consent Order and to implement or enforce its terms.

5. EPA, the State, and Respondents agree that the actions undertaken by Respondents in accordance with this Consent Order do not constitute an admission of any liability by any Respondent. Respondents do not admit, and retain the right to controvert in any subsequent proceedings other than proceedings to implement or enforce this Consent Order, the validity of the

Statement of Facts or Determinations contained in Sections V and VI, respectively, of this Consent Order.

### III. STATEMENT OF PURPOSE

6. By entering into this Consent Order, the mutual objectives of the Parties are:

a. to reach a final settlement among the Parties with respect to the RSR Corporation Superfund Site located in Texas ("Site") pursuant to Section 122(g) of CERCLA, 42 U.S.C. 9622(g), that allows Respondents to make a cash payment, including a premium, to resolve their alleged civil liability under Sections 106 and 107 of CERCLA, 42 U.S.C. §§ 9606 and 9607, for injunctive relief with regard to the Site and for response costs incurred and to be incurred at or in connection with the Site, thereby reducing litigation relating to the Site;

b. to reach a final settlement among the Parties with respect to the Site pursuant to Section 361.200 of the Texas Health and Safety Code, 30 T.A.C. § 335.351(d) that allows Respondents to make a cash payment to resolve their alleged civil liability to the State under Section 361.271 of the Texas Health and Safety Code for injunctive relief and for State Response

Costs incurred at or in connection with the Site, thereby reducing litigation related to the Site;

c. to simplify any remaining administrative and judicial enforcement activities concerning the Site by eliminating a substantial number of potentially responsible parties from further involvement at the Site; and

d. to obtain settlement with Respondents for their fair share of response costs incurred and to be incurred in connection with the Site by the EPA Hazardous Substance Superfund, by the State, and by private parties, to provide for full and complete contribution protection for Respondents with regard to the Site pursuant to Sections 101(f)(2) and 102(g)(5) of CERCLA, 42 U.S.C. §§ 9613(f)(2) and 9622(g)(5) and Sections 361.277 and 361.344 of the Texas Health and Safety Code.

#### DEFINITIONS

7. Unless otherwise expressly provided herein, terms used in this Consent Order that are defined in CERCLA or in regulations promulgated under CERCLA shall have the meaning assigned to them in the statute or regulations. Whenever the terms listed below are used in this Consent Order, the following definitions shall apply:

a. "CERCLA" shall mean the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, 42 U.S.C. § 9601, et seq.

b. "Consent Order" or "Order" shall mean this Administrative Order on Consent and all appendices attached hereto. In the event of conflict between this Order and any appendix, the Order shall control.

c. "Day" shall mean a calendar day. In computing any period of time under this Consent Decree, when the last day would fall on a Saturday, Sunday, or federal holiday, the period shall run until the close of business of the next working day.

d. "EPA" shall mean the United States Environmental Protection Agency and any successor departments, agencies or instrumentalities.

e. "EPA Hazardous Substance Superfund" shall mean the Hazardous Substance Superfund established by the Internal Revenue Code, 26 U.S.C. § 9507.

f. "Interest" shall mean interest at the current rate specified for interest on investments of the EPA Hazardous Substance Superfund established by 26 U.S.C. § 9507, compounded annually on October 1 of each year, in accordance with 42 U.S.C. § 9607(a).

g. "Paragraph" shall mean a portion of this Consent Order identified by an arabic numeral.

h. "Parties" shall mean EPA, the State of Texas, and the Respondents.

i. "Respondents" shall mean those persons, corporations, or other entities listed in Appendix A.

j. "Response costs" shall mean all costs of "response" as that term is defined by Section 101(25) of 42 U.S.C. § 9601(25).

k. "Section" shall mean a portion of this Consent Order identified by a roman numeral.

l. "Site" shall mean the Resource Conservation Superfund Site, encompassing approximately 13.6 square miles located in Dallas, Texas, depicted more clearly on the map attached as Appendix B.

m. "State" shall mean the State of Texas.

n. "State Response Costs" shall mean all costs of response as that term is defined by Section 101(25) of CERCLA, including those costs incurred and paid by the State prior to and including October 31, 1997, pursuant to Section 361.200 of the Texas Health and Safety Code.

o. "United States" shall mean the United States of

America, including its departments, agencies and instrumentalities.

#### V. STATEMENT OF FACTS

8. The Site is an approximately 13.6 square mile area located in west Dallas, Dallas County, Texas. Lead, arsenic, cadmium and other hazardous substances have been released from or are threatened to be released from a secondary lead smelter and associated facilities located in the approximate center of the Site. The Site is listed on the National Priorities List, 60 Fed. Reg. 50435 (Sept. 29, 1995), which constitutes Appendix B to the National Oil and Hazardous Substances Pollution Contingency Plan ("NCP"), 40 C.F.R. Part 300, which EPA promulgated pursuant to Section 105 of CERCLA, 42, U.S.C. § 9605.

9. Because of the large size of the site, EPA has divided the Site into Operable Units ("OUs"). The Site OUs are depicted on the map attached hereto as Appendix B. OU No. 1 consists of privately owned residential properties and residential high risk areas (such as schools, churches and day care centers) and is bounded on the north and east by the Trinity River, on the south by Ft. Worth Avenue and Davis Avenue, and on the west by State Highway Loop 12 (Walton Walker Blvd.) And the

Trinity River levee. OU No. 2 is an area owned by the Dallas Housing Authority for public residential housing and is bound by Westmoreland Road to the west, Hampton Road to the east, Canada Drive to the north and Singleton Boulevard to the south. OU No. 3 consists of three distinct properties where smelter waste was disposed, two of which are former City of Dallas landfills and one that is a lead slag and batter chip disposal area. OU No. 4 is the location of the former secondary lead smelter and related facilities located on the southeast side of the intersection of Westmoreland Road and Singleton Blvd. OU No. 5 is located across the street on the southwest side of the intersection of Westmoreland Road and Singleton Blvd. This is the location of former battery breaking and disposal areas associated with the secondary smelting activities.

10. Smelter operations commenced at OUs Nos. 4 and 5 of the Site in the early 1930s and permanently ceased in 1984.

11. Releases of hazardous substances, including, but not limited to, lead, cadmium, and arsenic, have occurred and may continue to occur at and from the smelter properties, from smelter and related operations, from air emissions from the smelter stack, from the use by area residents of battery chips

and lead slag as fill in residential yards and driveways and from the disposal of smelter wastes at various locations at the Site.

12. As a result of the release or threatened release of hazardous substances, EPA, the State, and other entities have undertaken response actions, as that term is defined in Section 101(25) of CERCLA, 42 U.S.C. § 9601(25) and Section 361.003(32) and (33) of the Texas Health and Safety Code, at or in connection with the Site, and EPA, the State, and/or other entities undertake response actions at the Site in the future.

13. As a result of a lawsuit brought by the City of Dallas and the Texas Air Control Board against RSR Corporation ("RSR") and a related company, Murph Metals, Inc. ("Murph"), in 1983 RSR and Murph were required by court order to fund cleanup of the residential community within one-half mile of the smelter. As a result, RSR and Murph entered into a CERCLA Administrative Order on Consent with EPA to perform the cleanup. The cleanup was performed from 1984 through 1985 and required the removal and offsite disposal of soil in residential areas and public play areas and day care centers located within the one-half mile boundary. The cleanup action conducted from 1984 through 1985 was based in part on recommendations made by the Center for

Disease Control ("CDC") and was considered a protective and appropriate action at that time.

14. In 1990 the CDC revised its recommendations and lowered its blood lead level of concern. In addition, EPA obtained new information indicating that contamination from the smelter extended beyond the original one-half mile area addressed in the 1984-85 cleanup. Consequently, EPA conducted a removal action in OU No. 1 consisting of the removal and offsite disposal of soils contaminated in excess of removal action cleanup levels at 42 residential and residential high risk areas. The residential areas previously addressed in the early cleanup did not require further removal actions.

15. Concurrent with the removal action at OU No. 1, EPA conducted a remedial investigation and human health and ecological risk assessments to determine the nature and extent of contamination at the residential locations in OU No. 1. Based on the successful completion of the removal action at OU No. 1, the results of the remedial investigation and risk assessments, and the public's comments, on May 9, 1995, EPA issued a Record of Decision ("ROD") for OU No. 1. The ROD for OU No. 1 set forth EPA's finding that no further CERCLA response action is necessary at residential and residential high risk (day care centers, etc.)

locations in OU No. 1 to protect human health and the environment.

16. On August 9, 1993, EPA and the Dallas Housing Authority ("DHA") entered into a CERCLA Administrative Order on Consent ("AOC"). Under the AOC, DHA performed (with the oversight and approval of EPA) a remedial investigation at OU No. 2 and conducted a removal action of contaminated soils and a demolition of approximately 167 buildings located at the southwest portion of OU No. 2. The AOC specified that DHA perform the removal and demolition activities in the same manner and in accordance with the Action Memoranda for EPA's removal action in OU No. 2. Concurrent with DHA's activities, EPA performed human health and ecological risk assessments. Based on the successful completion of the removal and demolition activities at OU No. 2, the results of the remedial investigation and risk assessments for OU No. 2, and the public comments received, on May 9, 1995, EPA issued a ROD for OU No. 2. The ROD for OU No. 2 set forth EPA's finding that no further CERCLA response action is necessary at OU No. 2 to protect human health and the environment.

17. EPA conducted a remedial investigation and feasibility study and a human health and ecological risk assessment for OU No. 3. After taking public comments, EPA issued a ROD for OU No.

3 on September 30, 1997. The major components of the remedy selected for OU No. 3 are the excavation and offsite disposal of slag, battery chips, and contaminated soil from an area where surface dumping occurred; the containment with a protective cap of portions of the landfills where there is exposed slag, battery chips, and metals contaminated soil; and the removal of surface contamination from a public park. The projected cost of the remedy for OU No. 3 is \$6,350,000.

18. On December 22, 1994, EPA signed an Action Memorandum for the conduct of a non-time critical removal action at OU Nos. 4 and 5. EPA based its decision on an Engineering Evaluation/Cost Analysis Report that was issued for public notice and comment on September 16, 1994. EPA conducted the removal action at OU Nos. 4 and 5 from May 1995 to July 1995. The action consisted of removal of 600 drums of waste material, 90 debris piles and 60 laboratory equipment present inside and outside of the structures and buildings at OU Nos. 4 and 5. All materials were disposed of offsite at appropriate and permitted hazardous and non-hazardous disposal facilities.

19. EPA conducted a remedial investigation and feasibility study and a human health and ecological risk assessment for OU No. 4. After taking public comments, EPA issued a ROD for OU No.

4 on February 28, 1996. The major components of the remedy selected for OU No. 4 are the demolition and offsite disposal of the buildings on OU No. 4; the demolition and offsite disposal of the smelter stack; and the excavation and offsite disposal of concrete foundations and contaminated soil. The projected cost of the remedy for OU No. 4 is \$11,490,795.

20. EPA conducted a remedial investigation and feasibility study and a human health and ecological risk assessment for OU No. 5. After taking public comments, EPA issued a ROD for OU No. 5 on April 3, 1997. The major components of the remedy selected for OU No. 5 are decontamination of buildings; the demolition and offsite disposal of the former battery building; the containment of the former surface impoundment, former landfill and slag burial area; and no action for groundwater for OU Nos. 4 and 5. The projected cost of the remedy for OU No. 5 is \$9,343,800.

21. EPA has prepared Administrative Records for the final decisions issued for the Site.

22. EPA has documented that as of January 31, 1998, it has incurred and paid Response Costs at or in connection with the Site in the total amount of \$27,148,944.00.

23. EPA and other entities will continue to incur response costs at or in connection with the Site during the implementation of the response actions selected in the RODs for OU Nos. 3, 4, and 5.

24. The State, through the Texas Natural Resource Conservation Commission ("TNRCC"), also has performed response actions at the Site. In 1991, the TNRCC undertook the remediation of three of the heavily contaminated private residential homes located in OU No. 1. At these properties TNRCC fenced the sites, excavated contaminated soils, and disposed of the soils at permitted hazardous waste facilities.

25. From 1991 to 1993, the TNRCC conducted a visual survey of properties in OU No. 1 to determine the presence of battery casing chips as an indication of contamination. At the locations where survey crews found pieces of battery casings, soil samples were collected and analyzed for lead, arsenic and cadmium. TNRCC surveyed more than 4,000 sites during the investigation within OU No. 1. This survey was an essential part of EPA's Remedial Investigation and final remedial strategy for the Site.

26. The State has documented that it has incurred and paid State Response Costs at or in connection with the Site in the total amount of \$1,740,452.72 as of October 31, 1997.

27. EPA and the State have identified parties (Potentially Responsible Parties or "PRPs") who by contract, agreement or otherwise arranged for the disposal or treatment at the Site of materials containing hazardous substances that they owned or possessed.

28. EPA has prepared a contribution ranking list for PRPs who arranged for disposal of materials at the Site. EPA used typical operations records that cover a discreet period of time as a basis for the contribution ranking list. A copy of the contribution ranking list showing the volume of hazardous substances contributed by each Respondent is attached hereto as Appendix C.

29. Information currently known to EPA and the State indicates that the amount of hazardous substances contributed to the Site by each Respondent does not exceed one percent (1%) of the total contribution of hazardous substances to the Site, and that the toxic or other hazardous effects of the substances contributed by each Respondent to the Site do not contribute disproportionately to the cumulative toxic or other hazardous effects of the hazardous substances at the Site.

30. EPA estimates that the total response costs incurred and to be incurred at or in connection with the Site by the EPA

Hazardous Substance Superfund, the State, and other parties will be between \$50,000,000 and \$60,000,000. The payment required to be made by each Respondent pursuant to this Consent Order is a minor portion of this total amount.

## VI. DETERMINATIONS

31. Based upon the Statement of Facts set forth and on the administrative record for this Site, EPA has determined that:

a. The Site is a "facility" as that term is defined in Section 101(9) of CERCLA, 42 U.S.C. § 9601(9), and Section 361.181(c) of the Texas Health and Safety Code.

b. Each Respondent is a "person" as that term is defined in Section 101(21) of CERCLA, 42 U.S.C. § 9601(21), and Section 361.003(26) of the Texas Health and Safety Code.

c. Each Respondent is a "potentially responsible party" within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1), and Section 361.271 of the Texas Health and Safety Code.

d. There has been an actual or threatened "release" of a "hazardous substance" from the Site as those terms are defined in Section 101(22) and (14) of CERCLA, 42 U.S.C. §

9601(22) and (14), and Section 361.003(31) and (14) of the Texas Health and Safety Code.

e. The actual or threatened "release" caused the incurrence of response costs.

f. Prompt settlement with each Respondent is practicable and in the public interest within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1), and 30 T.A.C. § 335.351(d).

g. As to each Respondent, this Consent Order involves only a minor portion of the response costs at the Site within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1), and 30 T.A.C. § 335.351(d).

h. The amount of hazardous substances contributed to the Site by each Respondent and the toxic or other hazardous effects of the hazardous substances contributed to the Site by each Respondent are minimal in comparison to other hazardous substances at the Site within the meaning of Section 122(g)(1)(A) of CERCLA, 42 U.S.C. § 9622(g)(1)(A), and Section 361.200 of the Texas Health and Safety Code and 30 T.A.C. § 335.351(d).

## VII. ORDER

32. Based upon the administrative record for the Site and the Statement of Facts and Determinations set forth above, and in consideration of the promises and covenants set forth herein, the following is hereby AGREED TO AND ORDERED:

## VIII. PAYMENT TO THE UNITED STATES

33. Within 30 days of the effective date of this Order, each Respondent shall pay to the EPA Hazardous Substance Superfund the amount of Response Costs set forth in Appendix C attached hereto (hereinafter referred to as the "United States Settlement Amount").

34. Each Respondent's payment includes a payment for: a) past response costs incurred at or in connection with the Site; b) projected future response costs to be incurred at or in connection with the Site; and c) a premium to cover the risks and uncertainties associated with this settlement, including but not limited to, the risk that total response costs incurred or to be incurred at or in connection with the Site by the EPA Hazardous Substance Superfund, by the State, or by any private party, will exceed the estimated total response costs upon which Respondents' payments are based.

35. Each Respondent shall pay its United States Settlement Amount by certified or cashier's check made payable to "EPA Hazardous Substance Superfund." Each check shall reference the name and address of the party making payment, the "RSR Corp. Superfund Site," the EPA Region and Site Spill ID Number 062H, and the EPA docket number for this action, and shall be sent to:

EPA Superfund - RSR Corp. Superfund Site  
Superfund Accounting  
P.O. Box 360582M  
Pittsburgh, Pennsylvania 15251  
ATTN.: COLLECTION OFFICER FOR SUPERFUND

36. At the time of payment, each Respondent shall send notice that such payment has been made to:

Chief  
Superfund Cost Recovery Section  
U. S. Environmental Protection Agency  
Region 6  
1445 Ross Avenue  
Dallas, Texas 75202-7733

37. The component of each Respondent's payment that represents Past Response Costs as more specifically identified on Appendix C, shall be placed in the general Hazardous Substance Superfund to reimburse response costs incurred and paid by the United States on and prior to January 31, 1998. EPA, in its discretion, may place the component of each Respondent's payment that represents Future Response Costs and premium amounts, as

more specifically identified in Appendix C, in a Hazardous Substance Superfund special account for payment of CERCLA response costs related to any and all response actions performed at the Site after January 31, 1998.

#### IX. PAYMENT TO THE STATE OF TEXAS

38. Within thirty (30) days of the effective date of this Consent Order, each Respondent shall pay to the State of Texas the portion of State Response Costs allocated to it, as set forth on Appendix D incorporated herein by reference (hereinafter referred to as the "State Settlement Amount").

39. The total payments to be paid by each Respondent pursuant to this Section includes an amount for (a) the State's Past Response Costs, (b) projected Future Response Costs, and (c) a premium amount to cover the risks and uncertainties associated with this settlement, including, but not limited to, the risk that the total Future Response Costs incurred at or in connection with the Site by the State may exceed \$1,600,000, the State's estimated share of Future Response Costs.

40. Each Respondent shall pay the State its State Settlement Amount by certified or cashier's check made payable to "State of Texas (AG 98-905661)" and shall be delivered to Chief,

Natural Resources Division, Office of the Attorney General, P.O.  
Box 12548, Austin, Texas 78711.

X. FAILURE TO MAKE PAYMENT

41. If any Respondent fails to make full payment within the time required by Paragraph 33, that Respondent shall pay Interest on the unpaid balance. In addition, if any Respondent fails to make full payment as required by Paragraph 33, the United States may, in addition to any other available remedies or sanctions, bring an action against that Respondent seeking injunctive relief to compel payment and/or seeking civil penalties under Section 122(1) of CERCLA, 42 U.S.C. § 9622(1), for failure to make timely payment.

42. If the State does not receive payment of the State Settlement Amount within thirty (30) days of the due date, the State may bring an action to enforce the Consent Order under Sections 7.002, 7.003 and 7.004 of the Texas Water Code and/or seek penalties under Section 7.102 of the Texas Water Code.

XI. CERTIFICATION OF RESPONDENT

43. By signing this Consent Order, each Respondent certifies, individually, that, to the best of its knowledge and

belief, it has:

a. conducted a thorough, comprehensive, good faith search for documents, and has fully and accurately disclosed to EPA, all information currently in its possession, or in the possession of its officers, directors, employees, contractors or agents, which relates in any way to the ownership, operation, or control of the Site, or to the ownership, possession, operation, treatment, transportation, storage or disposal of a hazardous substance, pollutant, or contaminant at or in connection with the Site;

b. not altered, mutilated, discarded, destroyed or otherwise disposed of any records, documents or other information relating to its potential liability regarding the Site after notification of potential liability or the filing of a suit against it regarding the Site;

c. fully comply with any and all EPA requests for information regarding the Site pursuant to Sections 104(e) and 122(e) of CERCLA, 42 U.S.C. §§ 9604(e) and 9622(e).

## XII. COVENANT NOT TO SUE BY UNITED STATES

44. In consideration of the payments that will be made by Respondents under the terms of this Consent Order, and except as

specifically provided in Section XIV (Reservations of Rights by United States and State of Texas), the United States covenants not to sue or take administrative action against any of the Respondents pursuant to Sections 106 or 107 of CERCLA, 42 U.S.C. §§ 9606 or 9607, relating to the Site. With respect to present and future liability, this covenant not to sue shall take effect for each Respondent upon receipt of that Respondent's payment as required by Section VIII (Payment to the United States). With respect to each Respondent, individually, this covenant not to sue is conditioned upon: a) the satisfactory performance by Respondent of all obligations under this Consent Order, and b) the veracity of the information provided by Respondent relating to Respondent's involvement with the Site. This covenant not to sue extends only to Respondents and does not extend to any other person.

XIII. COVENANT NOT TO SUE BY STATE OF TEXAS

45. Subject to the reservations of rights in Section XIV (Reservations of Rights by United States and State of Texas) of this Consent Order, upon payment of the State Settlement Amount in this Consent Order, the State covenants not to sue or to take any other civil or administrative action against such Respondent

for any and all civil liability for reimbursement of State Response Costs or for injunctive relief pursuant to Texas Health and Safety Code § 361.277 and 30 T.A.C. § 335.351(e) relating to the Site. This covenant not to sue is conditioned upon the satisfactory performance by Respondents of all obligations under this Consent Order and the veracity of the information provided to the State by Respondents relating to Respondents' involvement with the Site. This covenant not to sue extends only to Respondents and does not extend to any other person.

XIV. RESERVATIONS OF RIGHTS BY UNITED STATES AND STATE OF TEXAS

46. The covenant not to sue by the United States set forth in Paragraph 44 does not pertain to any matters other than those expressly specified in Paragraph 44. The covenant not to sue by the State of Texas set forth in Paragraph 45 does not pertain to any matters other than those expressly specified in Paragraph 45. The United States and the State of Texas reserve, and this Consent Order is without prejudice to, all rights against Respondents with respect to all other matters including, but not limited to:

a. liability for failure to meet a requirement of this Consent Order;

- b. criminal liability;
- c. liability for damages for injury to, destruction of, or loss of natural resources, and for the costs of any natural resource damage assessments; or
- d. liability arising from any future arrangement for disposal or treatment of a hazardous substance, pollutant or contaminant at the Site after the effective date of this Consent Order.

47. Notwithstanding any other provision in this Consent Order, the United States and the State of Texas reserve, and this Consent Order is without prejudice to, the right to institute judicial or administrative proceedings against any individual Respondent seeking to compel that Respondent to perform response actions relating to the Site, and/or to reimburse the United States or the State of Texas for additional costs of response, if:

- a. information is discovered which indicates that such Respondent contributed hazardous substances to the Site in such greater amount or of such greater toxic or other hazardous effects that such Respondent no longer qualifies as a de minimis party at the Site because such Respondent contributed greater than 1% of the hazardous substances at the Site, or contributed

hazardous substances which are significantly more toxic or are of significantly greater hazardous effect than other hazardous substances at the Site.

XV. COVENANT NOT TO SUE BY RESPONDENTS

48. Respondents covenant not to sue and agree not to assert any claims or causes of action against the United States, its contractors or employees with respect to the Site or this Consent Order including, but not limited to:

a. any direct or indirect claim for reimbursement from the EPA Hazardous Substance Superfund based on Sections 106(b)(2), 107, 111, 112, or 113 of CERCLA, 42 U.S.C. §§ 9606(b)(2), 9607, 9611, 9612, or 9613, or any other provision of law;

b. any claims arising out of response activities at the Site; and

c. any claim against the United States pursuant to Sections 107 and 113 of CERCLA, 42 U.S.C. §§ 9607 and 9613, relating to the Site.

49. Nothing in this Consent Order shall be deemed to constitute preauthorization or approval of a claim within the

meaning of Section 111 of CERCLA, 42 U.S.C. § 9611, or 40 C.F.R. 300.700(d).

50. In consideration of the State's covenant not to sue in Paragraph 45 of this Consent Order, Respondents agree not to assert any claims or causes of action for costs, damages, or attorneys fees against the State of Texas or its contractors or employees with respect to this Consent Order or response activities at the Site.

51. Respondents covenant not to sue and agree not to assert any claims or causes of action against each other with regard to the Site pursuant to Sections 107 and 113 of CERCLA, 42 U.S.C. §§ 9607 and 9613.

#### XVI. EFFECT OF SETTLEMENT/CONTRIBUTION PROTECTION

52. Nothing in this Consent Order shall be construed to create any right, or bar any cause of action to, any person not a Party to this Consent Order. The United States, the State of Texas, and Respondents each reserve any and all rights (including, but not limited to, any right to contribution), defenses, claims, demands, and causes of action which each Party may have with respect to any matter, transaction, or occurrence relating in any way to the Site against any person not a Party

hereto. Provided, however, Respondents expressly waive their rights, if any, to contribution from any person not a party to this Consent Order for costs incurred by Respondents in complying with this Consent Order.

53. In any subsequent administrative or judicial proceeding initiated by the United States or the State for injunctive relief, recovery of response costs, or other relief related to the Site, Respondents shall not assert, and may not maintain any defense or claim based upon the principles of waiver, res judicata, collateral estoppel, issue preclusion, claim-splitting, or other defenses based upon any contention that the claims raised in the subsequent proceeding were or should have been brought in the instant action; provided, however, that nothing in this Paragraph affects the enforceability of the covenant not to sue included in Paragraph 44.

54. The Parties agree that each Respondent is entitled, as of the effective date of this Consent Order, to protection from contribution actions or claims as provided by Sections 113(f)(2) and 122(g)(5) of CERCLA, 42 U.S.C. §§ 9613(f)(2) and 9622(g)(5), for "matters addressed" in this Consent Order. The "matters addressed" in this Consent Order are all response actions taken by the United States and by private parties, and all response

costs incurred and to be incurred by the United States and by private parties, at or in connection with the Site.

55. The Parties agree that each Respondent is entitled, as of the effective date of this Consent Order, to protection from contribution actions or claims as provided in Section 113(f)(2) of CERCLA, 42 U.S.C. § 9613(f)(2) and Section 361.277(h) of the Texas Health and Safety Code for "matters addressed" in this Consent Order. The "matters addressed" in this Consent Order are all actions taken by the State of Texas and other entities and all response costs incurred and to be incurred by the State of Texas and private parties at or in connection with the Site.

#### XVII. PARTIES BOUND

56. This Consent Order shall apply to and be binding upon EPA and the State of Texas and upon Respondents and their heirs, successors and assigns. Any change in ownership or corporate or other legal status of a Respondent, including but not limited to, any transfer of assets, real or personal property, shall in no way alter such Respondent's responsibilities under this Consent Order. Each signatory to this Consent Order certifies that he or she is authorized to enter into the terms and conditions of this

Consent Order and to execute and bind legally the party represented by him or her.

#### XVIII. INTEGRATION/APPENDICES

57. This Consent Order and its appendices constitute the final, complete and exclusive agreement and understanding among the Parties with respect to the settlement embodied in the Consent Order. The Parties acknowledge that there are no representations, agreements or understandings relating to the settlement other than those expressly contained in this Consent Order. The following appendices are attached to and incorporated into this Consent Order:

"Appendix A" is the List of Respondents.

"Appendix B" is the Site Map.

"Appendix C" is the United States De Minimis Contribution Ranking List, including the amount to be paid to the United States.

"Appendix D" is the State of Texas De Minimis Contribution Ranking List, including the amount to be paid to the State of Texas.

XIX. PUBLIC COMMENT - UNITED STATES

58. This Consent Order shall be subject to a public comment period of not less than thirty (30) days pursuant to Section 122(i) of CERCLA, 42 U.S.C. § 9622(i). In accordance with Section 122(i)(3) of CERCLA, 42 U.S.C. § 9622(i)(3), EPA may withdraw or withhold its consent to this Consent Order if comments received disclose facts or considerations which indicate that this Consent Order is inappropriate, improper or inadequate.

XX. PUBLIC COMMENT - STATE OF TEXAS

59. This Consent Order shall be subject to a public comment period of not less than thirty (30) days pursuant to Section 7.110 of the Texas Water Code. In accordance with Section 7.110(c) of the Texas Water Code, the Attorney General of the State of Texas may withdraw or withhold consent to this Consent Order if comments received disclose facts or considerations that indicate that the consent is inappropriate, improper, inadequate, or inconsistent with the requirements of Chapter 7 of the Water Code or statutes, rules, permits, or orders within the jurisdiction of the Texas Natural Resource Conservation Commission.

XXI. STATE APPROVAL

60. The State may withdraw its consent to this Consent Order if a majority of its Commissioners do not approve this Consent Order when presented at agenda by the Executive Director of the Texas Natural Resource Conservation Commission.

XXII. ATTORNEY GENERAL APPROVAL

61. The Attorney General or his designee has approved the settlement embodied in this Consent Order in accordance with Section 122(g)(4) of CERCLA, 42 U.S.C. § 9622.

XXIII. EFFECTIVE DATE

62. The effective date of this Consent Order shall be the date upon which EPA issues written notice to Respondents that the public comment period pursuant to Paragraph 58 has closed and that comments received, if any, do not require modification of or EPA withdrawal from this Consent Order, and that this Consent Order has been approved by the State.

IT IS SO AGREED AND ORDERED:

ATTORNEYS FOR THE STATE OF TEXAS

## **ENCLOSURE 8**

**State of Texas De Minimis Contribution  
Ranking List with State Settlement Amount**

## **How the De Minimis Settlement Costs Were Calculated by the State of Texas**

Documented Pounds into Facility — based on the business records of RSR Corporation as compiled by EPA.

Percent of Total — your percent by weight of 100 percent of the material shipped to RSR by all generators based on the business records of RSR Corporation as compiled by EPA.

Past Costs — The State of Texas incurred costs of \$1,740,473 responding to the RSR Superfund Site. Under the terms of the de minimis settlement offer being made by the State of Texas, each party has been allocated a share of the State's past costs based on the volume of waste each party shipped to the RSR Site. For purposes of the State's de minimis settlement offer, 50 percent of the State's Past Costs are allocated to the generators.

Future Costs — The State of Texas anticipates that it will incur future costs at the RSR Superfund Site of \$3 million. Your share of the State's future costs is based on the volume of waste each party shipped to the RSR Site. For purposes of the State's de minimis settlement offer, 50 percent of the State's Future Cost are allocated to the generators.

100% Premium — The premium amount covers the risk to the State of Texas that future costs may be greater than anticipated.

Total Settlement Amount — The total settlement amount is the total of the State's past costs, future costs, and the premium.

Each party that accepts the State's de minimis settlement offer will resolve all of its liability for State and federal Superfund response costs that have been or may be incurred at the Site by the State or other responsible parties. The State will be a signatory to the EPA's Administrative Order on Consent attached as Enclosure 7.

For questions about the State's cost claim, contact Rachel Davidson, Natural Resources Division, Office of the Texas Attorney General, 512-463-2012, or write to P.O. Box 12548, Austin, TX 78711-2548.

Signature Page for AOC

IN THE MATTER OF:

RSR CORPORATION SUPERFUND SITE  
DALLAS, TEXAS

Proceeding under Section 122(g)(4)  
of the Comprehensive Environmental  
Response, Compensation, and  
Liability Act of 1980, as amended  
42 U.S.C. § 9622(g)(4)

U.S. EPA Docket No. \_\_\_\_\_

ADMINISTRATIVE ORDER  
ON CONSENT

AGREED:

Respondent:  
(Name and  
Address)

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Total Amount to be Paid to the United States: \$ \_\_\_\_\_

Total Amount to be Paid to the State of Texas: \$ \_\_\_\_\_

By: \_\_\_\_\_  
Signature

\_\_\_\_\_  
Date

\_\_\_\_\_  
Print Name

\_\_\_\_\_  
Title

Agent Authorized to Accept Service of Process on Behalf of Above-  
Signed Party:

Name: \_\_\_\_\_

Title: \_\_\_\_\_

Address: \_\_\_\_\_

Telephone: \_\_\_\_\_

## Instructions for Signature Page of Administrative Order on Consent (AOC)

A signature on the Signature Page indicates a willingness on the part of the party to accept this settlement offer from EPA and the State. **Please do not submit a check at this time for the settlement amount.** The amount will be payable at the time the AOC becomes effective. Your signature at this stage is a first step in that process.

“U.S. EPA Docket No. \_\_\_\_\_” Leave the Docket No. blank. It will be assigned at a later time.

### “AGREED: Respondent”

If the respondent is agreeable to becoming a party to the settlement embodied by the AOC, please print respondent's name (as it appears on the Contribution Ranking List) and address.

“Total Amount to be Paid to United States: \$\_\_\_\_\_.” Fill in the applicable amount as ascertained from the “United States De Minimis Contribution Ranking List.”

“Total Amount to be Paid to State of Texas: \$\_\_\_\_\_.” Fill in the applicable amount as ascertained from the “State of Texas De Minimis Contribution Ranking List.”

Signature Block: Representative of respondent, signature, printed name and title.

“Agent Authorized.” Name, title, address, and phone for Agent for Service of Process (registered agent) for the respondent.

*After all signature pages are received from respondents:*

The State of Texas and the federal government will make the AOC available to the public for review and comment. After the State of Texas and the federal government have had an opportunity to review and consider all comments received, EPA will notify you in writing of the effective date of the AOC and the date that payments are due. This public comment and review period may take several months to complete. ***Please do not send any payments until you are notified in writing by EPA of the effective date.***

## **Document Review Procedures**

## DOCUMENT REVIEW PROCEDURES

### EPA DOCUMENTS AVAILABLE FOR REVIEW

Documents pertaining to the RSR Corporation Superfund Site ("Site") are maintained by the Environmental Protection Agency ("EPA") in three groups. The following is a description of the three groups of documents and the procedures for reviewing those documents. Potentially Responsible Parties ("PRPs") wishing to review non-confidential, non-privileged documents related to the Site do **not** need to submit a Freedom of Information Act (FOIA) Request.

1. **Contribution Ranking List Supporting Documentation.** Supporting documentation for the Contribution Ranking List is currently in the possession of an EPA contractor with offices in downtown Dallas. **These documents comprise the evidence linking generator PRPs to the Site.** EPA has provided to all de minimis PRPs a Summary ("Transaction Summary Report") of all of the documents/transactions ("evidence documents") which pertain to that party's listing on the Contribution Ranking List.

To review the evidence documents on which the Summary is based, please contact Kim Shultz, Work Assignment Manager for TechLaw Inc, (WA ESS6023), at either (214) 754-8725 or (214) 953-0045, or email at [kshultz@techlawinc.com](mailto:kshultz@techlawinc.com) for an appointment to review the evidence documents in Dallas. You may also contact Barbara Aldridge, EPA enforcement officer for the Site, at (214) 665-2712, or email at [aldridge.barbara@epa.gov](mailto:aldridge.barbara@epa.gov) if you have general questions about the review process or the evidence documents themselves. Please be aware that strict chain-of-custody procedures will be observed at all times during the review process in order to protect the integrity of the documents.

EPA's contractor can provide, on request from a PRP, copies of documents showing that PRP's contributions. If you wish to have these copies mailed to you, please contact Kim Schultz as above. You may also use the attached mailer to request copies of the evidence documents.

2. **Administrative Records.** EPA maintains several Administrative Records (ARs) for the RSR Site which can be accessed at the three locations listed below at any time during business hours without an appointment. The Administrative Records contain information EPA relied upon or considered in making decisions for various components (operable units) of the RSR Site. The AR indices will assist you in identifying documents of interest.

The organization of the ARs for the RSR Site is unique because there are multiple Operable Units (OUs) and there have been multiple removal and remedial action decisions. In addition, the documents that make up the ARs are voluminous and generally apply to more than one OU or decision. Consequently, EPA is maintaining a master set of documents, which are physically located in three locations. Each page of every document is marked with a document number and AR indices are provided that list the document number, title, author, recipient, date, and description. Documents can be located on the shelf through the document numbers.

As decisions are made for each OU, EPA finalizes the AR for the relevant OU or OU. In addition, EPA maintains an AR File (equivalent to a draft AR) for each OU prior to a final decision so that the public can access documents during public comment periods. At this time, the following Final ARs are available for the RSR Site:

Final AR OU 1 Removal Action (residential properties)  
Final AR OU 1 Record of Decision  
Final AR OU 2 Record of Decision  
Final AR OU 3 Record of Decision  
Final AR Non-Time-Critical Removal Action OUs 4 and 5  
Final AR OU 4 Record of Decision  
Final AR OU 5 Record of Decision

These Administrative Record (AR) documents and indices can be reviewed at the following three locations **without an appointment**:

US EPA, Region 6 FOIA Review Room  
7th Floor (6MD-II) 1445 Ross Avenue  
Dallas, Texas 75202-2733  
(214) 665-3109 (Marcia Griggs)  
Hours of Operation: Mon-Fri 8:00 a.m. to 4:30 pm

Dallas Public Library, Dallas West Branch  
2332 Singleton Blvd, Dallas, Texas 75212  
(214) 670-6445  
Hours of operation: Mon. and Wed. 10am - 6pm, Tues. and Thur. 10am - 8pm, Sat 10am - 5pm.

Texas Natural Resource Conservation Commission (TNRCC)  
12118 North IH 35, Technical Park Center  
Room 190, Building D, Austin, Texas 78753  
(512) 239-2920  
Hours of operation: M-F, 8am - 5pm.

3. EPA General RSR Site File. EPA also maintains a general file for the RSR Site. Documents dated prior to 1989 are known as the "historical documents" and are currently filed in chronological order. Documents dated between 1990 and 1993 are known as the "general files" and are filed according to the current Superfund file structure and classifications but without operable unit designation. Documents dated after May 11, 1993 and pertaining to a specific operable unit are filed according to the current Superfund file structure for that operable unit. Those without an operable unit designation are included in the general files.

If you wish to review the general RSR Superfund Site file, please contact Elizabeth Rogers at (214) 665-6708 or email at [rogers.elizabeth@epa.gov](mailto:rogers.elizabeth@epa.gov), Verne McFarland at (214) 665-6617, email at [mcfarland.verne@epa.gov](mailto:mcfarland.verne@epa.gov) or Steve Wyman at (214) 665-2792, email at [wyman.steve@epa.gov](mailto:wyman.steve@epa.gov) for additional information.

EPA can provide, upon request from the PRP, courtesy copies of that PRP's evidence documents only. Copies of any other requested documents or records will be charged at FOIA rates and billed directly to the requestor.

All EPA phone numbers can be reached via EPA Region 6's toll-free numbers 1-888-884-2478 or 1-800-533-3508. Summary information on the RSR Site can be found on our web site at [www.epa.gov/earth1r6](http://www.epa.gov/earth1r6) under "Superfund Division."
